

Amendments to the Claims

The following listing of claims will replace all prior versions, and listings, of claims in the application.

1. (Currently amended) A method performed by a computer system, comprising:
storing an electronic version of a paper, wherein the electronic version is displayable on a display device as a likeness of the paper;

detecting content of a first portion of the likeness, wherein the detected content is at least one of the following: a term that indicates a location at which the second portion of the likeness is located within the paper; and a phrase that indicates the location; and

in response to after the detecting of the detected content, and in response thereto, forming a hyperlink reference and embedding the hyperlink reference within at least part of the detected content of the first portion of the likeness, wherein the hyperlink reference is associated with a second portion of the likeness, such that when the first portion of the likeness is displayed on the display device, at least a portion of the detected content is selectable by a user to cause the computer system to display the second portion of the likeness on the display device, ~~and wherein the content is at least one of the following: a term that indicates a location at which the second portion of the likeness is located within the paper; and a phrase that indicates the location.~~

2. (Cancelled).

3. (Cancelled).

4. (Cancelled).

5. (Cancelled).

6. (Cancelled).

7. (Cancelled).

8. (Currently amended) A system, comprising:

a computing device for:

storing an electronic version of a paper, wherein the electronic version is

displayable on a display device as a likeness of the paper;

detecting content of a first portion of the likeness, wherein the detected

content is at least one of the following: a term that indicates a location

at which the second portion of the likeness is located within the paper;

and a phrase that indicates the location; and

in response to after the detecting of the detected content, and in response

~~thereto~~, forming a hyperlink reference and embedding the hyperlink

reference within at least part of the detected content of the first portion

of the likeness, wherein the hyperlink reference is associated with a

second portion of the likeness, such that when the first portion of the

likeness is displayed on the display device, at least a portion of the

detected content is selectable by a user to cause the computing device

to display the second portion of the likeness on the display device, ~~and~~

~~wherein the content is at least one of the following: a term that~~

~~indicates a location at which the second portion of the likeness is~~

~~located within the paper; and a phrase that indicates the location.~~

9. (Cancelled).

10. (Cancelled).

11. (Cancelled).

12. (Cancelled).

13. (Cancelled).

14. (Cancelled).

15. (Currently amended) A computer program product stored on a tangible computer-readable medium, comprising:

a computer program processable by a computer system for causing the computer system to:

store an electronic version of a paper, wherein the electronic version is displayable on a display device as a likeness of the paper;

detect ~~detecting~~ content of a first portion of the likeness, wherein the detected content is at least one of the following: a term that indicates a location at which the second portion of the likeness is located within the paper; and a phrase that indicates the location; and

in response to ~~after the detecting of the detected content, and in response thereto,~~

form a hyperlink reference and embed the hyperlink reference within at least part of the detected content of the first portion of the likeness, wherein the hyperlink reference is associated with a second portion of the likeness, such that when the first portion of the likeness is displayed on the display device, at least a portion of the detected content is selectable by a user to cause the computer system to display the second portion of the likeness on the display device, ~~and wherein the content is at least one of the following: a term that indicates a location at which the second portion of the likeness is located within the paper; and a phrase that indicates the location.~~

17. (Cancelled).

18. (Cancelled).

19. (Cancelled).

20. (Cancelled).

21. (Cancelled).

22. (Cancelled).

23. (Cancelled).

24. (Cancelled).

25. (Currently amended) The method of claim 1, wherein the detected content is at least one of the following: a term that indicates a page of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page.

26. (Currently amended) The method of claim 1, wherein the detected content is at least one of the following: a term that indicates a page number of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page number.

27. (Currently amended) The method of claim 1, wherein the detected content is at least one of the following: a term that indicates a title of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the title.

28. (Previously presented) The method of claim 1, wherein the paper is at least one of the following: a newspaper; a magazine; and a journal.

29. (Previously presented) The method of Claim 1, wherein the electronic version is a first electronic version of the paper, and comprising:
translating a second electronic version of the paper into the first electronic version.

30. (Previously presented) The method of Claim 1, and comprising:
highlighting the hyperlink reference.

31. (Cancelled).

32. (Cancelled).

33. (Currently amended) The system of claim 8, wherein the detected content is at least one of the following: a term that indicates a page of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page.

34. (Currently amended) The system of claim 8, wherein the detected content is at least one of the following: a term that indicates a page number of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page number.

35. (Currently amended) The system of claim 8, wherein the detected content is at least one of the following: a term that indicates a title of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the title.

36. (Previously presented) The system of claim 8, wherein the paper is at least one of the following: a newspaper; a magazine; and a journal.

37. (Previously presented) The system of Claim 8, wherein the electronic version is a first electronic version of the paper, and wherein the computing device is for:
translating a second electronic version of the paper into the first electronic version.

38. (Previously presented) The system of Claim 8, wherein the computing device is for:
highlighting the hyperlink reference.

39. (Cancelled).

40. (Cancelled).

41. (Currently amended) The computer program product of claim 15, wherein the detected content is at least one of the following: a term that indicates a page of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page.

42. (Currently amended) The computer program product of claim 15, wherein the detected content is at least one of the following: a term that indicates a page number of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the page number.

43. (Currently amended) The computer program product of claim 15, wherein the detected content is at least one of the following: a term that indicates a title of the location at which the second portion of the likeness is located within the paper; and a phrase that indicates the title.

44. (Previously presented) The computer program product of claim 15, wherein the paper is at least one of the following: a newspaper; a magazine; and a journal.

45. (Previously presented) The computer program product of Claim 15, wherein the electronic version is a first electronic version of the paper, and wherein the computer program is processable by a computer system for causing the computer system to:
translate a second electronic version of the paper into the first electronic version.

46. (Previously presented) The computer program product of Claim 15, wherein the computer program is processable by a computer system for causing the computer system to:
highlight the hyperlink reference.

47. (Cancelled).

48. (Cancelled).
